Log Splitter

It's quick and efficient. Augertorque's new Log Splitter for processing and recycling logs.

The compact and robust Log Splitter makes light work of processing those fallen trees into manageable pieces.

As the Log Splitter rotates, the self-guiding threaded body engages with the timber and draws the splitter into the log. The conical shape quickly works its way through the log, splitting the log in two. For larger logs, the Splitter can be repositioned to continue the split along the whole length of the log.

LOG SPLITTER LS180

EXCAVATORS 1 - 5 TONNES & SKIDSTEERS

Earth Drill Compatibility:	X2000 – 4500MAX
Diameter:	180mm
Length:	300mm
Hub Options:	65 Round
Unit Weight:	14.6 kg
